Ministry of Employment

# The institutional setup of the employment system

# Issues in the decentralized model

- The job centres are responsible for services to the unemployed and employers
- Diversity between the efforts of each municipality

# Issues in the decentralized model

- Local labour markets cross the borders of the municipalities
- The main focus of the job centre is unemployed within the municipality

# Performance management tools

- National it-systems
- Legislation
- Economic incentives
- Implementation and dialogue

# New effort towards companies

- Preventing bottlenecks
- Increased focus on the needs of the companies
- Better coordination across municipalities
